SUBJECT: SUN STREAK Report - 9039 (U)

TO: ODCSINT, DAMI-PO

SG1A

1. (S/STD/NF) On 27 June 1990, two remote viewing sessions were conducted to determine the current location of a target vessel identified as the [REDACTED]. Efforts were made to determine the presence of illegal drugs aboard ship and to determine the ultimate destination of the illegal drugs.

2. (S/STD/NF) Remote Viewer 025 perceived the target vessel as being located at geographical coordinates, 24°N/72°W; illegal drugs were aboard ship; they were stored in an area of boxes and chewing gum.

3. (S/STD/NF) Viewer 052 perceived the target vessel as being located off the southern coast of Puerto Rico, "near Ponce," at geographical coordinates, 17°45'N/66° 40'W. The illegal drugs appeared to be cocaine stored near (a cargo?) of peanuts and peanut butter.

4. (S/STD/NF) This target was assumedly the subject of a SUN STREAK collection effort in Key West, Florida.

1. WHAT IS THE CURRENT LOCATION OF THE VESSEL?

 $16^{\circ} 45' N$     $71^{\circ} 55' W$ 

2. IS THE TARGET VESSEL CARRYING NARCOTICS?

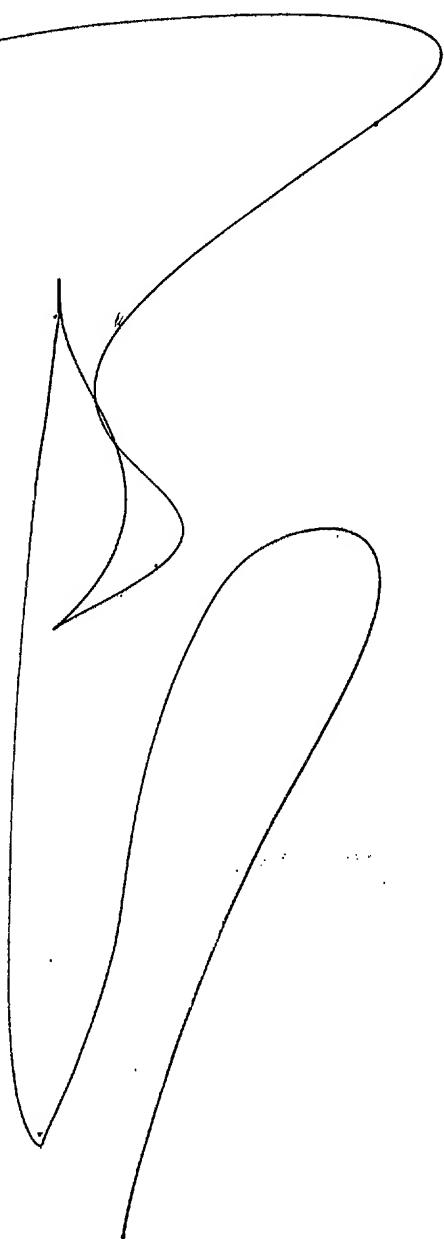

Not currently. Indications that narcotics were present <sup>recently</sup> but [REDACTED] has transferred or released said narcotics at present time.

SG1A

3. Comments: This vessel has carried narcotics in the past, and recently. The contraband was w/i sealed, lidded boxes. These boxes are w/i large storage areas or compartments. These compartments are now filled with a dark, oily, putrid smelling liquid with a petro smell. Vessel may now be on a "false-out" run; that is, carrying through with the ~~per~~ perception that it currently carries. Impression is that vessel transferred contraband ~~so~~ to another vessel fairly recently.
